

I listen to K-LOVE which is on the FM translator service. This is the only station I listen to and I believe it serves the community well. I believe there would be a significant impact on my community if the LPFM stations had priority. K-LOVE promotes a friendly, family listening station where we don't have to worry about the song lyrics and listen to unwanted commercials. K-LOVE has a positive and encouraging impact on not only my community, but across America.
